a) Ordered list of event task instances:

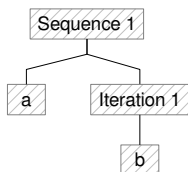

Iteration detection
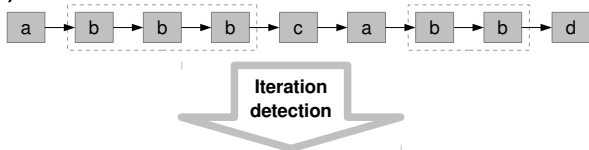

b) Ordered list of task instances with detected iterations:

Sequence detection
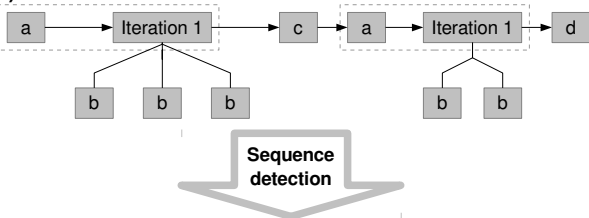

c) Ordered list of task instances with detected sequences:

Task Tree Derivation
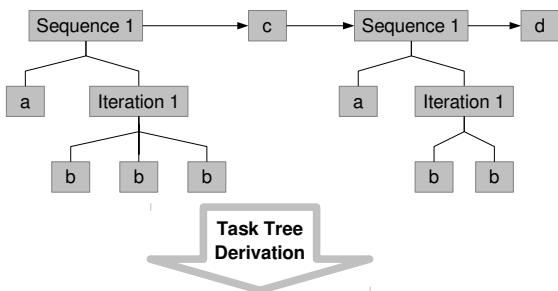

d) Derived task tree:

Legend:

| a | = Instance of Event Task "a" | a (hatched) | = Event Task "a" |

| Iteration 1 | = Instance of "Iteration 1" | Iteration 1 (hatched) | = "Iteration 1" |

= group of instances considered in next step
